Joe Foley, SEH, presented information on his plan design for the Water Quality Sponsored Project. The Plan calls for Squaw Creek Stabilization from 4th St NE to East Park. The consensus of the council was favorable and no opposition to the preliminary plan was expressed.

Doug Tarr presented a review of the sidewalk ordinance primarily focusing on discussion of ordinance requirements for repair and replacement. No changes were proposed.

Ron explained to the council that there have been some employee concerns over the city mileage reimbursement policy. The current policy of reimbursing mileage at a rate of $.36 per mile was last adjusted in 2002 or 2003. The consensus of the council was to have Ron draft a policy where the city rate would mirror the federal IRS rate. The draft will be considered at a future council meeting.

Doug presented some information on the need for no parking zones in the 500 Block of 1st St. SE. After much discussion the council consensus was to monitor the street for a few months and readdress later if necessary.

The workshop concluded at 7:30 p.m.
